To the SurferQuest family and friends,

There is no higher priority to our entire Global Software Applications Family than the safety of our customers, our partners, our employees, and their families. As we continue to learn of the great reach of this pandemic, we continue to review and implement provisions of our Emergency Response Plan which of course evolves as this pandemic sweeps our world, and nation. GSA and SurferQuest continue to safeguard our employees' health and well-being while ensuring the Company's ability to serve the needs of our clients.

We are engaged in active and ongoing monitoring, specifically disease progression, responses from the WHO, national, state, and local government agencies. Our team is also tracking the risks to suppliers and supply chain as well as implementing standards for containment and prevention.

We too, have family. We too, have had our lives shifted in ways we never imagined. We understand the difficult processes of navigating this pandemic on both a corporate level, and a personal level.

For those of you that are still able to have your doors open, we are here to assist and support you in any way we can. For those of you that have had to temporarily suspend operations, we are here for you too. Call or email us, and we will work with you through these times, as we believe there is a light on the other side.

Stay well our friends,

A handwritten signature in black ink that reads 'Kathryn Koning'.

Kathryn Koning, CEO/President
And the entire Global Software Applications Family
